

50,000 Majority In Great Party Landslide Indicated

Coffee County Gave Bankhead Majority of 533, Miller 571 and Merrill 568

Unofficial returns from the thirty precincts in the county in Tuesday's election place Coffee County in the Democratic column by a majority of 533 votes. Of a total of 2,797 votes polled John H. Bankhead received 1,665 and J. Thomas Hefflin received 1,132. The other party nominees show a little stronger vote, Governor H. M. Miller's total majority being 571, and Lieutenant-Governor Hugh D. Merrill's majority being 568.

Only eight of the twenty-three precincts in the county gave a majority against the Democratic ticket. These being Beate 7, 8, 9, 12, 13, 16, 22 and 25. In one or two of these beats the majority is quite small and Hefflin's majority is only 174 in the eight precincts. Beat 7 is the banner Hefflin beat, having given the Senator a majority of 86 votes.

According to the unofficial tabulation Box 2 of Beat 14 is the only voting place in the county that gave the Democratic ticket a solid vote—12 having been cast for the nominees and none for the other ticket.

In checking over returns from the 1928 election it is noted that during that campaign a total of 2,702 votes were cast for Smith and Hoover in the county, Smith having received a majority of 534 of these. The total vote in the Senatorial contest Tuesday was 2,797, Bankhead having received a majority of 533. Thus it can be seen that Coffee County can always be counted on for a Democratic majority of at least five hundred votes, which, of course, is a mighty safe margin.

The canvassing board will meet at Elba Friday to make the official count of the votes and will give the official tabulation in our issue of next week. The tabulated statement appearing today is taken from unofficial figures gathered Tuesday night and Wednesday morning.

MONTGOMERY, Nov. 6.—Advertiser and Associated Press tabulation of 1,027 boxes out of 2,115, representing 211,927 votes, result as follows:

Bankhead	128,817
Hefflin	82,810
Miller	124,671
Locke	75,714
Merrill	94,177
Powell	53,200

In a number of boxes reporting only the Bankhead-Hefflin returns were given, accounting for the smaller vote in the other races.

Alabamians overwhelmingly reasserted their belief in the principles of the Democratic party in Tuesday's election by a majority that will be around 50,000.

Senator J. Thomas Hefflin and his running mates, Hugh Locke for Governor and Dempsey Wolf for Lieutenant Governor, were moved under by an avalanche of ballots that indicated one of the largest votes in the history of the State. Close to 500,000 at the end of a strenuous, well organized campaign, brought out the voters from the Tennessee Valley to the Gulf and they used those votes to whip down and politically destroy the men who were seeking by an alliance with Republican office holders to destroy the Democratic party.

Returns received by The Advertiser up to the hour of going to press indicate that Senator Hefflin has carried less than 10 counties. These returns indicated that he has a chance to carry Blount, did carry Chambers, and a chance to carry Chilton, Clay, Cleburne, Coosa, Dekalb, Decatur, Franklin, St. Clair, Shelby and Winston. Out of these 12 counties the Democratic landslide may beat him out of five or six when final returns are in.

Jefferson County did the unexpected in many quarters and returned a majority of almost two

Italian Rye Grass Will Freshen Lawn

Those who want a green lawn this winter should sow Italian rye grass now, says John W. Hyde, associate professor of landscape architecture of the Alabama Polytechnic Institute, at Auburn.

The grass may be sowed on Bermuda soil or on the bare ground, he said. In some cases, where the soil is heavy, Prof. Hyde believes, it might be best not to sow the grass on Bermuda, since it sometimes hinders the growth of the Bermuda.

Italian rye grass is an annual and is admirably adapted to freshening up the lawn during winter, he said. English rye grass is a perennial and is not as good for sowing on Bermuda as the Italian grass, since it will crowd the Bermuda.

"Large areas should be harrowed before sowing with a disk harrow," he said. "Smaller areas can be worked with an iron garden rake. It is important to have the ground well scratched before sowing."

"The seed should be sowed broadcast at the rate of 1 pound to 200 square feet of space," he continued. "If the ground is dry a light watering after sowing is recommended, and the grass should be watered if the weather continues dry."

Prof. Hyde said that it is easy to have a nice lawn of permanent mixtures anywhere in Alabama. Bermuda is considered the standard basis for lawn mixtures in Alabama, but the Auburn professor prefers Kentucky blue grass to Bermuda for North Alabama.

"The seed should be sowed broadcast at the rate of 1 pound to 200 square feet of space," he continued. "If the ground is dry a light watering after sowing is recommended, and the grass should be watered if the weather continues dry."

ELBA PLAYED 3RD TIE GAME IN 3 YRS. WITH WETUMPKA

Elba's fighting Tigers came through with flying colors Friday, when they tied the Wetumpka Aggies 6-6, in Wetumpka. Considering the fact that the local aggregation spent nearly a half day riding in the biting cold and that it was minus the services of three regulars, one cannot help but wonder how the strong up-state club was held to a dead-lock and even outplayed for three quarters. Wetumpka lost to the powerful Sydney-Lanier team by the small score of 12-0. Judging the abilities of the Aggies by this contest many thought that the Tigers were in for a severe beating, but the Tigers evidently thought differently and backed up their ideas with almost super-human performance.

The Wetumpka club boasted a fast, hard-running set of backs and a quick charging forward wall, but their attack was led by the flashy Thrash and Robison. The passing and kicking of these two youngsters was far above par for the high school footballer. The hearts of the few Elba fans present at the game slipped a couple of beats when they saw these two stars hour after hour, the building was to have; how much credit will be needed in the county to make the next crop, which credit cannot be supplied by pushing any public works which are now in contemplation and which our county is able to put on and pay for; and any other pertinent facts which will guide the committee in handling the situation.

Charles Clark gives the committee on finances will canvass the county to find out how much of the money necessary to supply actual cases of need can be raised locally. This will be necessary in order for the Red Cross workers in this county to map out their program of relief and to say what aid they will be able to give.

The committee on credits will begin to function when the time comes to make the 1931 crop. By that time it is hoped that some method of supplying the necessary credit will be devised.

The drought relief commission feels that as little actual charity should be dispensed as may be to the beauty of it. Jello and whipped cream were served with the cake. Misses Nell Gainer Clark, Kate Sue Stephens and Jean Brock assisted in serving twenty-five little boys and girls.

The Aggies were unable to score until the latter part of the third quarter when they completed a beautiful pass for six points. The try point after touchdown was blocked by Elba's plucky little center, Fay Hudson. This diminutive lad was a constant thorn in the side of his opponents all the afternoon. He broke through the line workers in this county. People in need of aid should get in touch with these workers. If this is impossible Mr. Rowe Watson and Mr. W. M. Ray will have application blanks which may be obtained by seeing them.

The main purpose of this effort is to see that no family in Coffee County suffers for the necessities of life during the coming winter.

On Friday evening, October 31, the members of Miss Nettie Ruth Walker's Sunday School class of the Church of Christ enjoyed their annual Halloween social at Adelle Dixon as hostess.

Appropriate Halloween decorations were used. The many witches, black cats, goblins, bats, etc., gave the living room a "spooky" effect. The season's flowers with gay colored autumn leaves banded the punch bowl, from which Miss Gladys White served the guests. The appearance of the with added much enjoyment.

Games, fortune telling and the promenade on their treasure hunt furnished much merriment. Perseus Young was the lucky one, finding the hidden treasure a box of candy. Orange sherbert and chocolate cakes were served the guests before departure.

The Baptist W. M. S. held its monthly business meeting at the church Monday, with Mrs. W. F. Cooper presiding. The lesson—A New Day In An Old World—was taught by Mrs. B. S. Franklin. The devotionals were given by Mrs. Willie Michel. There were 18 present.

Mr. and Mrs. W. F. Cooper spent Friday in Montgomery.

He was the laughing-stock of the town. He was shunned by playmates at school. He was regarded as a comical clown.

He paid no heed to stinging blows. He held his chin high in the air. He fought alone, as the record shows.

He won his fight, he knew no fear. He whispered not when class-mates abused. He never lost his fighting heart. He never kicked, tho often misused. He never shirked his bitter part.

He now towers above those who sneered. He reads his name in headline print. He gained his goal because he cared. He had a will which refused to dimt.

He is now the star of the entire team. He is loved and respected by all. He shines aloft as a golden beam. He was downed but he refused to fall.

—Coach Paul Morgan.

DROUTH RELIEF COM. WILL MAKE SURVEY OF COUNTY

At the request of Mr. Seth P. Storry, state commissioner of agriculture and ex-officio chairman of the drought relief commission, the local drought relief committee met in Enterprise October 21st for the purpose of organizing the work in Coffee County. The central committee for the county is made up of Judge J. A. Carnley, Probate Judge, Mr. W. M. Ray, county farm agent, Miss Aliye Hughes, home demonstration agent, Mrs. W. H. Edden, child welfare supervisor, Dr. W. A. Stanley, health officer, Mr. H. C. Johnson, cashier of the First National Bank of Elba, Mr. J. L. Warren, president of the First National Bank of Enterprise, Dr. W. C. Braswell, president of the Coffee County Farm Bureau, and Dr. C. P. Hayes, Red Cross chairman. This committee was divided into committee on finances, relief and credits.

The committee on relief is to make a survey of the county to determine just how many farm families will actually have to be supplied with food between the end of harvest and the beginning of next year. How much credit will be needed in the county to make the next crop, which credit cannot be supplied by pushing any public works which are now in contemplation and which our county is able to put on and pay for; and any other pertinent facts which will guide the committee in handling the situation.

Charles Clark gives the committee on finances will canvass the county to find out how much of the money necessary to supply actual cases of need can be raised locally. This will be necessary in order for the Red Cross workers in this county to map out their program of relief and to say what aid they will be able to give.

The committee on credits will begin to function when the time comes to make the 1931 crop. By that time it is hoped that some method of supplying the necessary credit will be devised.

The drought relief commission feels that as little actual charity should be dispensed as may be to the beauty of it. Jello and whipped cream were served with the cake. Misses Nell Gainer Clark, Kate Sue Stephens and Jean Brock assisted in serving twenty-five little boys and girls.

The Aggies were unable to score until the latter part of the third quarter when they completed a beautiful pass for six points. The try point after touchdown was blocked by Elba's plucky little center, Fay Hudson. This diminutive lad was a constant thorn in the side of his opponents all the afternoon. He broke through the line workers in this county. People in need of aid should get in touch with these workers. If this is impossible Mr. Rowe Watson and Mr. W. M. Ray will have application blanks which may be obtained by seeing them.

Elba Theatre Will Open Friday Night

The Elba Theatre will open on Friday night of this week for the first time since last summer. The former manager, Mr. Hornby, is now located in Hartford, and the local playhouse is opening under new management.

The announcement of the opening appears elsewhere in this paper, and it will be noticed that the admission prices have been reduced to 10c and 25c.

Mrs. Bryant directed the program. Mrs. Casper Foley gave the "Minutes of the Movies." Mission topic—"The Home As a School Of International Brotherhood."

Mrs. A. M. Garrett talked on "International and International Attitudes." Mrs. Jack Lee had for her subject, "The Home Must Work For World Minutemen." Mrs. W. M. Ridgford's subject was "The Home As a School Of International Brotherhood."

The auxiliary voted to accept it. Mrs. R. S. Boyd led a devotional on "The Golden Rule." Mrs. Prescott led the prayer.

During the social hour a presentation was made. A two-course dinner was served with Miss Laura Bryant assisting. The Halloween idea was also carried out in the refreshment course.

The meeting was largely attended. The next meeting will be held at the church for Bible study. The time was changed to 8:15.

Mrs. Tyler Hurt and son, Charles, of New Orleans, were guests of her mother, Mrs. Polly Lee, last week.

Miss Madeline Strain, who is attending Women's College, in Montgomery, spent the weekend in Elba with her parents, Mr. and Mrs. Almon Strain.

Mr. and Mrs. Hobbie Helms and little daughter, of Troy, were guests of Elba relatives Sunday.

Miss Essie Boutwell visited friends in Troy Sunday.

Little Frances Armor Morrow, of Moultrie, Ga., is visiting her grandparents, Mr. and Mrs. J. H. Armor.

On account of the illness of the pastor, Rev. B. S. Franklin, there were no preaching services at the Elba Baptist church Sunday. A short conference was called after Sunday School, and the church voted to give Brother Franklin an indefinite leave of absence from the pulpit. There will be preaching by Rev. McLeod, of the State Mission Board, on next Sunday morning and evening.

Mr. and Mrs. F. D. Veal and family were called to Louisville Saturday on account of the death of a relative.

Mr. Curt Jones, of New Brockton, visited in Elba Sunday.

"Bermuda grass makes an excellent lawn in the Southern States. It is easily kept clipped with a lawn mower, has a smooth surface, and forms an even turf without clumps or coarse stems. The one objection to its use for lawns—that it becomes brown after the first severe frost—can be overcome by seeding the lawn with Italian rye grass in the fall. Italian rye grass dies in the spring about the time Bermuda starts growth," says Sam F. Brester, landscape specialist, Auburn.

Big bargains in 4's and 6's that run and look like new at Dorsey's.

When grease soaks into foods ridged in deep fat it is because the fat is not hot enough.

219 members is the largest musical

organization in the world. "Wha-

taya means "musical".

WEYLER, THE BUTCHER

General Valeriano Weyler of

Spain, who died a few days since

the age of 92, was the last of the

officers of high rank who sought to

suppress the final revolution of Cu-

ba against Spanish rule. To his

ruthless policy was largely due the

popular indignation which finally

led the United States to repulse

the cause of the Cubans in 1898

and win their freedom.

Weyler was sent to Cuba in

1896, shortly after which he adopt-

ed a most brutal "concentration"

system whereby Cuban women and

children were herded in concentra-

tion camps, where thousands suf-

fered and died. He became gen-

erally known throughout Cuba and

the United States as "Weyler, the

Butcher," and as such he is remem-

bered in the western hemisphere.

He was recalled from Cuba in

1897, but the sentiment against

Spain because of his acts was

crystallized by the destruction of

Christyville Maine in Havana

Success for Her

When you know why people who use

Herb's Hair Tonic it so much, says Mrs.

J. G. Wade, who lives at 902 South

two years I was in bed most of the

time. I was so exhausted. I couldn't

rest, and food didn't interest me a

bit. Our druggist told us to use Her-

b's. I am as well as ever. I have

even gained the forty pounds I lost."

Herb's is a vegetable food which

does nothing more than help your

stomach and bowels take care of the

food you eat. It keeps them active

so your blood gets plenty of vitamins

to build red corpuscles.

Sold by Peoples Drug Store.

QUEER FAMILY MURDER

A case is reported which pre-

sents an unusual problem of rela-

tionship among members of a cer-

tain California family. The man

in the case has found a solution of

the problem by giving himself up

for bigamy.

Ten years ago he married a sup-

posed widow, a Mrs. Stapleton,

who had a 16-year-old daughter.

Hearing later that his wife had a

living husband in Texas, he left

home and hid himself in the woods.

He has since borne his three children.

Recently he learned that Staple-

ton had really died before the wife's

remarriage, consequently he

finds himself with two wives on his

hands, one of whom is his mother-

in-law and the other his step-daugh-

ter, while his three children are the

grandchildren of his first wife. A

rather awkward situation for all

concerned.

HONOR AFTER 40 YEARS

A belated honor came to one of

agriculture's greatest benefactors

a few days ago, when Prof. Bal-

cock of Wisconsin, who has been

honored by the United States De-

partment of Agriculture for 40

years, was given the honor of

being named one of the 100 great

men of the world.

It was in 1890 that Prof. Bal-

cock perfected a method of deter-

mining the exact percentage of

nutrients in milk. The process con-

sists simply in adding a proper

quantity of sulphuric acid to the

milk and then measuring the amount

of sulphuric acid which is re-

quired to neutralize the milk.

The prize mentioned was given

by Senator Capper of Kansas for

"the most distinguished service to

American agriculture." Perhaps ex-

plains why the prize was given to

Weyler, who was not only

because of the importance of Prof.

Balcock's discovery, but also be-

cause of his generosity in freely

giving it to the public instead of

taking the rich money reward

which a patent would have assur-

ed him.

LITTLE GIRL'S BIG JOB

Governor Huey P. Long of

Louisiana, recently nominated for

the United States Senate, main-

tains a reputation for doing uncom-

mon things a few days ago, by ap-

pointing Miss Alice Lee Grosjean, 21

years old, to be secretary of state.

For six years Miss Grosjean has

been Long's confidential secretary

and has been his able partner in

his numerous political controver-

sies. The sudden death of Secre-

tary of State Bailey gave him an

opportunity to reward her loyalty

by giving her this \$7,000 job, a

salary only \$500 a year less than

his own.

Miss Grosjean is described as a

pretty, petite, hazel-eyed, auburn-

haired young woman, and her pub-

lished photograph bears out the de-

scription. She was married at the

age of 15 and divorced her hus-

band three years ago, resuming her

maiden name. The former hus-

band, James Terrell, accused Long

of influencing her to get a divorce.

Long's wife and three children do

not live with him regularly. So

the gossip goes.

Anyway, Miss Grosjean is sec-

retary of the great state of Louisi-

ana, the first woman to hold a state

cabinet office.

A BRIEF HISTORY OF MY

YOUNG ORCHARD

(By Walter E. Crosby)

My second year in high school

(term 1928-29) I selected as one

of my subjects Vocational Agri-

culture. There are several courses

one can study in Vocational Agri-

culture. At that time our teacher

offered a course in Horticulture.

There were twenty boys enrolled

in the Horticulture class.

In connection with our class

work we had to have a project.

Five of us selected fruit trees as

Quality and Variety. Highest Cash
